

AD NO 27251

AS THE HISTORY

# THE CHESAPEAKE BAY INSTITUTE of The Johns Hopkins University

DATA REPORT 17

CHOPTANK RIVER SPRING CRUISE

28 April - 1 May 1952

January 1954  
Reference 54-1

CHESAPEAKE BAY INSTITUTE  
THE JOHNS HOPKINS UNIVERSITY

DATA REPORT 17

CHOPTANK RIVER-SPRING CRUISE  
28 April - 1 May 1952

This report contains results of work carried out for: the Office of Naval Research of the Navy Department under research project NR 083-016, Contract Nonr 248(20), and research project NR 083-070, Contract Nonr 248(30); the State of Maryland (Department of Research and Education); and the Commonwealth of Virginia (Virginia Fisheries Laboratory).

January 1954  
Reference 54-1

D. W. Pritchard  
Director

The data presented in this report were collected in the Choptank River during the period 28 April to 1 May 1952.

The purpose of this cruise was to study the physical and chemical structure of the area in the spring season.

The presentation of data in this report does not constitute publication and the information may be subject to modification at a later date.

#### Location of Stations

An arbitrary line designating the mouth of the river was chosen from red nun buoy 16FF off James Island to black spar 3 off Sharps Island. The stations were chosen upstream from this line in the deepest part of the channel. The station designators consist of the letters CK followed by the numerals representing the number of nautical miles to the nearest mile upstream from the mouth. Thus CK-30 is the station 30 nautical miles upstream from the line designating the mouth of the river.

#### Observations

Current speed and direction were measured with the confined submerged drags described in Chesapeake Bay Institute Technical Report No. 1.

Temperature and salinity were determined by means of the Conductivity-Temperature-Indicator (CTI). (See Data Report 13, reference 53-4.)

Oxygen was determined by the modified Winkler titration method.

pH was determined with a Beckman pH meter.

Turbidity, inorganic phosphate, and chlorophyll were determined by the methods outlined in Data Report 12, reference 52-21.

Alkalinity was determined by the method found in Industrial and Engineering Chemistry, Analytical Edition, Volume 18, No 12, 1946.

Weather is reported in U. S. Weather Bureau code.

Wind force is given in Beaufort scale units.
